

Six modules delivering a complete journey through lecithin innovation

Join the International Lecithin & Phospholipids Society (ILPS) for a free six-part webinar series designed to expand scientific understanding, foster professional exchange, and equip industry experts with practical insights into lecithins and phospholipids.

Starting February 2026 – free of charge.

Webinar Roadmap

- 1 History, Origin & Production of Lecithin**
Thu, 19 Feb 2026 – 11:00 CET
AAK · Bunge
- 2 Analytical Parameters & Phospholipids**
Thu, 26 Feb 2026 – 11:00 CET
RF Solutions BV · R. M. Consulting
- 3 Functional Properties & Modification**
Thu, 5 Mar 2026 – 11:00 CET
AAK · Sternchemie GmbH & Co. KG
- 4 Applications in Food, Feed & Nutritional Supplements Fields**
Thu, 12 Mar 2026 – 11:00 CET
Shankar Europe SRL
- 5 Legal Aspects & GMO**
Thu, 19 Mar 2026 – 11:00 CET
AAK · Eurofins GeneScan GmbH · FoodChain ID Testing
- 6 Food Safety & Nutrition**
Thu, 26 Mar 2026 – 11:00 CET
AAK · Bunge

Format and Language: 30–45 minutes presentation + live Q&A
Conducted in English · Online participation (link provided after registration)

A Comprehensive Learning Journey Across the Lecithin Landscape

The ILPS Lecithin Knowledge Webinars bring together leading scientists, technologists, and industry practitioners to explore the full spectrum of lecithin and phospholipid science. Across six interconnected modules, participants gain deep insights into historical, analytical, functional, legal, and application-driven aspects of this unique class of ingredients.

Delivered weekly and enriched with expert Q&A, the free webinar series provides a highly focused, structured learning format for professionals working across the entire value chain.

WEBINAR SERIES 2026

Audience

These webinars are tailored for professionals and researchers working in:

- Food and Feed technology & formulation
- Pharmaceutical & Personal Care applications
- R&D and product development
- QA/QC and laboratory analytics
- Procurement & supply chain
- Technical sales & application support
- Universities and scientific research
- Anyone seeking an in-depth understanding of lecithin and phospholipids

A strong foundation, whether scientific or practical, will enhance participants' learning experience.

Benefits

Your Advantages at a Glance:

- Gain structured, science-based knowledge on lecithins and phospholipids
- Learn directly from globally recognized experts and ILPS members
- Stay informed on analytical parameters, functional behaviour, and regulatory trends
- Strengthen your professional network through the ILPS expert community
- Receive a Certificate of Attendance for each completed module
- Download exclusive learning materials for ongoing reference
